- Profit "clock" shows deal profit as deal progresses
- Prints all forms - many in laser format
- Curomax (Dealer Track) integration
- No long-term contracts
- Unlimited support and training

"...makes a real impact on our bottom-line because it helps us close more business."

Saves Time - Happier Customers - More Profits

Q-LITE

Four Easy Steps

1 Enter customer information.

2 Enter vehicle information.

3 Work the deal.

4 Print your forms and deliver the unit.

Four Reasons to Choose Q-Lite

1. Functionality and Accuracy

Q-Lite was designed by business managers. It has everything you need to effectively work your deals and you can trust its calculations! No wonder thousands of business managers as well as leading insurance and warranty companies swear by Quantech.

2. Ease-of-Use

We offer free unlimited training until you are 100% comfortable – it's so intuitive, a couple of hours is usually plenty.

3. Customer Support

How many software companies actually answer the phone? We do. F&I software is mission critical, so when something isn't right, we're there for you.

4. Affordability

Our "lite" package has all the F&I functionality of our full system, at a fraction of the cost.

"In my career, I have used three other F&I software packages at other dealerships, and I would have to say that none of those even compares with Quantech's F&I software. I love it! The system helps me manage every part of the sale very efficiently, which is important when closing a deal. Quantech helps me do my job better in front of my customers and helps me close more business."

Carol Pierson, Business Manager – Mike Rosman RV Sales
